

Astrological research : Murder cases

Cemal Cicek

February 2018

This work is not for the religious sect members regardless of the tropical or sidereal, that think that the last truth already know and believe there is no more to be discovered. They should further believe, they can find out everything if they only look horoscopes. But They will not be able to check whether the astrological claims are correct and nothing discover without higher harmonics even though a thousand years are passed. They will still debate a thousand years later which house systems could be. Let them go on sleep and speculate.

This work is for those who open minded, who think that everything must be accurate in seconds, examine and seek the truth without any selfish goals.

Here I will compare natal, progression, lunar, and solar of the victim with the natal, progression, lunar, and solar of the perpetrator.

They were used:

a) Sidereal Zodiac (Krishnamurti Ayanamsa), must always mean Node.

b) Harmonic 4096 for exact birth times, harmonic 4 and 8 when only birth day known, harmonic 64 when birth time rounded.

c) From the inside to the outside:

1. inner circle (1) : victim's natal

2. inner circle (2) : victim's progression, -solar, -lunar

3. inner circle (3) : perpetrator's natal

4. outer circle (4) : perpetrator's progression, -solar, -lunar

d) first planetary pictures marked red, second green and third orange.

e) Keys :

Tertiary I: 1 sidereal day = 1 sidereal month (27.321661 days)

Rate : $0.99726966 / 27.321661 = .036501062655012$

Tertiary II (Minor) : 1 sidereal month = 1 sidereal year

Rate : $27.321661 / 365.25636042 = .074801328493181$

Secondary Progression : 1 sidereal day = 1 sidereal year

Rate : $0.99726966 / 365.25636042 = .002730327978008$

Le Roux, Agnès

14 September 1948 at 00:55 (= 12:55 AM)Neuilly sur Seine, France, 48n53, 2e16

French murder victim, whereabouts unknown since 26 October 1977. She was the heir to the luxury 'Palais de la Méditerranée' hotel complex in Nice. Her lawyer, Jean-Maurice Agnelet, was convicted on 11 April 2014 of her murder. The case made headlines for thirty years and still retains an element of mystery.

Salieri, Antonio

18 August 1750 at 22:00 (= 10:00 PM)Legnago, Italy, 45n11, 11e18

The rivalry between Salieri and Mozart is chronicled in Aleksandr Pushkin's play "Mozart and Salieri," Nicolai Rimsky-Korsakov's opera "Mozart et Salieri "and Peter Shaffer's play

"Amadeus," later made into a film. However most historians and music scholars feel that their rivalry, if existent at all, may have been exaggerated and fictionalized. If Salieri indeed confessed to poisoning Mozart, there does not seem to be any evidence or historical fact supporting the homicide.

Sheppard, Marilyn

14 April 1923 at 09:00 (= 09:00 AM)Cleveland OH, USA, 41n30, 81w42

American homicide victim beaten to death 7/04/1954 in her own bed while her husband, Sam, was napping downstairs. Her husband was indicted in a hasty trial that was later reopened to find him innocent after 12 years. They married while Sam was in medical school and Marilyn worked as he finished school, then helped in his office. As she nearly died in the birth of their one son, 5/18/1947, Sheppard was frightened of sex. However their marriage was stable with family and community involvements.

Sheppard's body and her unborn fetus were exhumed 10/05/1999 in an attempt to get clean DNA profiles for the defense trial brought by son, Sam, Jr., in hopes of clearing his father's name of guilt, a stronger legal exoneration than the not-guilty verdict he won at his criminal trial in 1966. Sam Jr., will collect \$2 million in damages if he wins.

Sheppard, Sam

29 December 1923 at 05:30 (= 05:30 AM)Cleveland OH, USA, 41n30, 81w42

American physician who was accused of murdering his wife in her own bed on 7/04/1954 by beating her with 27 blows to the head

He was found guilty in a hasty trial and served 12 years in prison. The case was then reopened, and he was exonerated. After he returned to medicine without success, Sheppard became a professional wrestler. He subsequently wrote an autobiography, "Endure and Conquer" and struggled with drugs and alcohol.

Luciferia, Diane

3 July 1946 at 07:10 (= 07:10 AM) Kremlin Bicetre, France, 49n15, 4e02

On 3/10/1995, the two witches, Nicole and Dominique, appeared on a TV show, "J'y crois, j'y crois pas," hosted by Tina Kiffer on TF1. When they were not allowed to voice their opinions, they furiously stormed off the set.

Their rivalry escalated and on 3/15/1995, 2:40 PM, Dominique Desseaux murdered Nicole with a shotgun

Dominique Nicole Desseaux was born in London, 3/21/1966, time unknown.

Conclusions

1)If you have birth time of suspects, you can determine the murderer.

In order to determine the murderer, the planetary pictures ,that are shown below ,must be present several times in different progresions,lunar and solar.

murderer`s ☉ = victim`s ♂/♄

murderer`s ♂/♄ = victim`s ☉

murderer`s ♂/♄ = victim`s ♂/♄

2)If you have murderer's and victim's birth times, you can determine the time of the murder.

3)If suspect`s sun is not involved as a natal or progression(solar,lunar), he/she is not a murderer.
